## FLYING FROM DANGER

Great Exodus From Jackson One Result of the Fever Scare.

### REPORT ON THE EDWARDS CASES.

Quarantines Against New Orleans Are Putting the Treasury Department to Inconvenience in Getting Coin From the Mint at That Place.

JACKSON, Miss., Sept. 16.—The state capital is depopulated, its business houses closed and its newspapers suspended. Seven cases of yellow fever are officially announced at its very doors, with many suspected cases at various points. An embargo has been placed on the railroads of the state, and there are grave apprehensions that the dread disease has obtained a foothold in numerous parts of the state.

The worst fears of the medical fraternity and the public have been realized, and the prevailing disease at Edwards has been pronounced yellow fever. The state board of health has laid a general embargo on travel, except out of state, by means of an order promulgated yesterday afternoon and addressed to all lines of transportation. Travel from infected places is absolutely barred. The bright side of the situation is that the disease is of a very mild type. The exodus from this city, which began in a small way several days ago, has attained unprecedented proportions. The state board advises all who can to leave, and the railroads say they can handle the largest crowds. The most rigid local quarantine prevails here.

Dr. Guiteras reached Edwards at 4:30 a. m. yesterday and after investigation sent the following message to the state board:

"I arrived this morning. Have visited a number of cases, and the following are pronounced yellow fever: W. A. Montgomery, Patrick Montgomery, Miss Anna Henry, H. W. Barrett, E. F. Suttle and Miss Mamie Austin, three miles out in the country; Mrs. Champion, Champion Hill."

The following is Dr. Guiteras' report to Surgeon General Wyman: "The diagnosis of yellow fever made in six cases by Dr. Funnell is confirmed. He has two other cases that I have not yet seen. There are many children sick with what is probably a mild type of the disease. The cases are not confined to one locality, but are all traceable to the Anderson case, which came from Ocean Springs. The medium of distribution appears to have been the Champion case. Mr. Champion, who died, was a prominent man, and many people congregated in the house during his illness. Dr. Funnell is immune, and I recommend him as competent to take charge of the situation if necessary. I shall leave for Mobile unless otherwise directed."

### Treasury Put to Trouble.

WASHINGTON, Sept. 16.—The treasury department has already experienced some difficulty in making shipments of coin and currency from the United States subtreasury and the mint at New Orleans in consequence of yellow fever quarantines against that city. No particular inconvenience would result but for the fact that between \$500,000 and \$600,000 in subsidiary silver recently has been coined at that mint, which is now needed elsewhere. There are also about \$16,000,000 in silver dollars in the mint, which may be tied up. If the embargo is materially extended within the next few days or is even maintained as at present, the mint at Philadelphia will be temporarily run on double time to meet the present demand.

A telegram was received by the surgeon general of the Marine Hospital service from Dr. Carter, dated at Pontchartraine, saying that he had appointed guards for the towns of Perkinston and Berkley. He spoke of the stoppage of trains on the Ship Island and Gulf railroad by order of the state authorities and suggested that the same results might be accomplished by a train inspection service.

In view of the report the surgeon general ordered Surgeon Murray to give special attention to the Perkinston case.

### Chicago Will Not Quarantine.

CHICAGO, Sept. 16.—No quarantine will be declared in Chicago against the fever infected districts of the south. This was decided upon by a meeting of the board of health yesterday. It was announced that the yellow fever districts will be received in Chicago without question, it being agreed that the climatic conditions prevailing in Chicago preclude the possibility of any danger from that source.

### Refugees Fly to Atlanta.

ATLANTA, Sept. 16.—Yellow fever refugees poured into the city yesterday. During the day three special cars of refugees came in from New Orleans and other infected points. One car was filled with the troops from Jackson barracks in New Orleans. They stopped here but a few minutes and then passed on through to Chickamauga National park, where they will camp.

### Convicts Revolt in Montreal.

MONTREAL, Sept. 16.—There is a revolt at St. Vincent de Paul penitentiary, brought about by an order forbidding tobacco and luxuries brought in by friends and a change in management, brought about by political exigencies. Bedlam was let loose, the 291 convicts making the most awful racket. It was decided to make a united break for liberty yesterday when they were let out of their cells, but this failed, as they were kept in confinement. They are quiet now, but think look bad, and very serious trouble is expected. The force of guards is very small, and reinforcements have been sent from the city.

## SAFE ROBBERY RECALLED.

Arrest of Notorious Cracksmen in Connection With the Dennett Case.

NEW YORK, Sept. 16.—The boldest safe cracking job committed in this city while O'Brien was in charge of the detective bureau here remained a mystery until last night, when Chief McCluskey announced that he had the criminals in custody. Several safes in Dennett's restaurant on Park row, opposite the general postoffice, were plundered on Feb. 10, 1896, and \$2,000 in cash stolen. O'Brien's men could not find a clue to the identity of the cracksmen, but when McCluskey became chief of detectives he took up the old case and found that the safe robbing was the work of John Hamilton, alias McCarthy, alias Brooklyn Johnny, and John McManus, alias Kid McManus, two veteran safe burglars.

The pair were captured yesterday in Mount Morris park. Besides the Dennett crime, the prisoners are accused of having robbed the safe in Salvin's clothing store at 153 Park row on Oct. 1 last.

McManus' last term in prison was for robbing the safe in a Bridgeport (Conn.) jewelry store.

English Shipwrights Strike.

NEWCASTLE-ON-TYNE, England, Sept. 16.—The shipwrights are joining forces with the engineers in a formidable industrial struggle which is now seriously affecting the whole country. Following the strike of the men at the Armstrong Elswick works, the Whitworth yards and other shipbuilding yards on the Tyne and along the northeast coast, the shipbuilders' federation has called out all other shipwrights. This action, supplementing the engineering strike, has completed the paralysis of the shipbuilding trade.

## MICHAEL WINS AGAIN.

Starbuck's Conqueror Lowers Lesna's Colours and Breaks Records.

SPRINGFIELD, Mass., Sept. 16.—The 20 mile match race between Lucien Lesna and Jimmy Michael was won by Michael by 150 yards in the fast time of 38m. 11s., beating the world's record by 2 3-5s. The leader and time by miles follow:

Miles.	Time.
First..... Michael.....	1:55 4-5
Second..... Lesna.....	3:45 4-5
Third..... Lesna.....	5:44 2-5
Fourth..... Michael.....	7:34 1-5
Fifth..... Michael.....	9:23 1-5
Sixth..... Michael.....	11:10
Seventh..... Michael.....	13:05
Eighth..... Lesna.....	15:10 2-5
Ninth..... Michael.....	17:05 2-5
Tenth..... Lesna.....	19:02
Eleventh..... Michael.....	20:56 4-5

Thirteenth..... Michael.....	24:48 1-5
Fourteenth..... Michael.....	26:43
Fifteenth..... Michael.....	28:35
Sixteenth..... Michael.....	30:29 4-5
Seventeenth..... Lesna.....	32:23 3-5
Eighteenth..... Michael.....	34:17
Nineteenth..... Michael.....	36:12
Twentieth..... Michael.....	38:11

Besides breaking the 20 mile record Michael broke the 16 mile record, which was formerly 38m. 32 4-5s. and held by Lesna. The 20 mile record was formerly held by Lesna. The fastest mile was the tenth, made in 1m. 48 4-5s. The two started paced by quads. Michael took the lead at the start and kept it to the third lap, when Lesna passed him. Michael kept a few feet behind until the seventh lap, when he shot ahead and took the lead. At the fourth mile he was 100 yards ahead. He kept the lead to the seventeenth lap, when Lesna's paces passed his. Michael then hitched on to Lesna, leaving his own paces behind. Michael's paces caught up on the next lap, and Michael led again. Lesna then took the lead and kept it for a mile.

Michael took the lead at the twentieth lap and kept it for two miles. Lesna then had the lead by a few feet for a mile. Jimmy then shot ahead and with a fine burst of speed kept 40 yards ahead. He kept this lead till the thirty-third lap, when Lesna gained and led for a mile. That was the last time that the little Welshman was headed. At the seventeenth mile Michael was 50 yards ahead. He gained right along to the finish and passed the tape fully 150 yards in the lead. The crowd piled on to the track when he came around and fairly went wild.

## AUGUST IMPORTS AND EXPORTS.

Interesting Statistics Furnished by the Treasury Department.

WASHINGTON, Sept. 16.—Domestic exports for August were the largest of any August of which the bureau of statistics of the treasury department has a record. They were valued at \$79,497,320, as against \$66,639,981 in August, 1896, an increase of \$12,857,339. For the eight months ended Aug. 31 they amounted to \$629,434,373, an increase of \$62,217,387 over last year.

## The excess of exports of merchandise

over imports for August last was \$40,953,752, as against an excess of \$19,132,915 in August, 1896, and during the past eight months \$55,229,213, as compared with \$109,638,493 during the corresponding months of 1896.

The value of imports during August amounted to \$39,543,569. This is the smallest value since June, 1873, when they amounted to \$28,599,451.

The increase of exports is made up mainly of breadstuffs, which is accounted for by the heavy foreign demand for American grains.

The amount of gold imported during August amounted to \$4,374,175 and the exports to \$1,993,549.

The silver imports during August amounted to \$1,451,752 and the exports to \$5,913,277.

## NORTH RIVER BOATS COLLIDE.

It Is Believed Three Passengers on the Steamer Catekill Were Drowned.

NEW YORK, Sept. 16.—The big Hudson river steambreaker Catekill of the night line and the still larger excursion boat St. Johns came into collision last night on the North river off Fifty-fifth street in this city. The St. Johns, which was returning from a day trip up the river, had fully 1,000 excursionists on board and the other boat had started on its regular night trip with about 30 passengers.

As the result of the smash up the Catekill is now a wreck on the Jersey shore and Lehigh river. One of her passengers, Leonard P. Miller of Brooklyn, is a patient in the Roosevelt hospital, and three others are said to be in the work at the point of the river. The St. Johns was damaged, but none of her passengers were hurt.

Miller, who was taken from the water with a fracture of the leg, says he saw a small boat drift. The boat is supposed to have been a son of a gun. Timmerman, a resident of Lewis N. Y.

A young woman on the dock at the foot of West Fifty-ninth street said she thought she had lost two friends on board the Catekill.

Sultan Can Stand It if Paris Can't.

PARIS, Sept. 16.—La Patrie says that the sultan of Turkey has asked the Imperial Princess of Romania to leave in his majesty's carriage for the Yildiz park the performance which the Paris police recently refused to allow at the Folies Bergeres. It appears that the sultan has expressed a violent admiration of the singing company of Riza the Hunzuman raigane.

## Warship Sent to Central America.

WASHINGTON, Sept. 16.—Upon advice from United States Consul Prince at Guatemala City to the effect that revolutionists had captured the town of Ocas, on the west coast of Guatemala, the state department has called upon the navy department to send a warship there to watch over American interests, and the Albatross, at Mare island, has been ordered to the scene of trouble.

## TERMED A TRAITOR.

New York Democratic State Committee Expels Mr. Purroy.

### COURT OF APPEALS JUDGE NAMED.

Alton B. Parker Made the Choice of the Meeting After Four Names Were Submitted — The Chicago Platform Ignored.

NEW YORK, Sept. 16.—The meeting of the Democratic state committee at the Hoffman House began in an exceedingly lively manner more than an hour after the time announced for it. The fighting started in as soon as the roll was called.

County Clerk Purroy, who is a member of the committee, answered to his name when it was called.

Committeeman Colson immediately brought up a resolution expelling Mr. Purroy on the ground that he had betrayed his party.

Some of the up the state delegates defended Mr. Purroy, but the Tammany Hall members, led by Tom Grady, denounced him vigorously and insisted upon his expulsion.

The meeting of the committee was held with closed doors, but the voices of the wrangling committeemen could be distinctly heard in the main lobby of the hotel.

After a redhot argument Purroy was expelled from membership in the committee on the ground above stated—treason to Tammany Hall and the party.

Purroy left the committee room denouncing the members in the most dramatic manner. He was greatly excited and made the following statement:

"As already stated, Sheehan's resolution of expulsion from the state committee has no terrors for me.

"I view it with the utmost complacency and shall not question either the jurisdiction of the committee or the consistency of some of its members who so faithfully betrayed their presidential candidate last year.

"In fact, I regard it as a great compliment to be attacked politically by a man of Sheehan's disreputable public record.

"For a long time I have been steadily protesting against the humiliation of having to associate with him politically and against the degradation of having to pretend to regard him as the real leader.

"From now until the close of the polls I shall continue to do all in my power toward averting the woeful disgrace of extending Sheehanism to the new government of Greater New York, and, believe me, it is very gratifying to me to recognize in the futile expulsion the best proof that my humble efforts in this regard have already made themselves felt."

The vote expelling Purroy stood 48 to 4.

The four members who voted for Purroy were Duffy and Coffey of Kings, Sulzer of New York and Chase of Albany.

The committee then admitted members of the Democratic Loyal league and the Progressive Democratic league, who presented a memorial urging the endorsement of the Chicago platform.

The name of Judge Parker was placed in nomination for chief justice of the supreme court of appeals by James A. Betts of Ulster county.

Immediately after Mr. Betts finished his eulogy of Judge Parker, Norton Chase of Albany nominated D. Cady Herriek for the same office.

In all the names of four gentlemen were presented. They were: Judge Parker, who received 27 votes; Charles E. Patterson, who received 8 votes; former Attorney General Taber of Erie, 16 votes, and D. Cady Herriek of Albany, who received 3 votes.

The silver issue will not have a place in the campaign of the Greater New York.

The Democratic state committee, after a lively argument, decided to ignore the Chicago platform.

Representatives of the two wings of the party advocating the endorsement of the Chicago platform were listened to, but the state committee refused to take any action in the matter, in spite of the vigorous protest from the silver men.

No resolutions were presented relating in any way to a platform or referring to the Chicago platform.

National Committee man Frank Campbell was a member of the state committee, and a letter to the other members from Chairman James K. Jones of the national committee, in which Mr. Jones stated that the state committee should not be asked to endorse the Chicago platform, was not in a position to take any other action.

After the adjournment of the committee the silver men, headed by Senator Coffey of Brooklyn and President McDonald of the former loyal league, said there would undoubtedly be a silver Democratic nomination for mayor.

Tells Still Winding Around Luertger.

CHICAGO, Sept. 16.—The wild woman caught in Mo Jose Park, it is now known is not a stage-maker Luertger's wife. The prosecution in the case is reaching its end, and the announcement was made yesterday that it would probably have its witnesses on the stand by Saturday noon.

The evidence given weighed heavily against Luertger, and no more damaging testimony has been given against him than that from Professor George A. Dorsey, from the Field Columbian museum, who was on the stand in the afternoon.

Professor Dorsey also identified a bone shown him as the left temporal bone of a woman. Professor Norval H. Pierce identified the bones in a manner similar to that of Professor Dorsey.

### CONGRESSMAN TAWNEY.

The Minnesota Man Who Nipped Canadian Railroads.

The man who put a kink in the Canadian railroads by suggesting the ten percent discriminating duty on bonded goods shipped through Canada to the United States has been discovered. Minnesota claims him and is proud of him. He is Congressman James A. Tawney, of Winona, and he represents the First District.

For weeks the unknown statesman who was responsible for section 22 of the Dingley tariff bill has been praised by the press, commended by the public, blessed by the railroad men of the

JAMES A. TAWNEY.  
(Author of Section 22 of the Dingley Bill.)

country and set upon by Canadians as a meddler and an estoppler of industry. It is safe to say that he is execrated by the Canadian Pacific road, but there are those in this country who say he is one of the greatest and shrewdest statesmen in America and that he richly deserves to be president of the United States before he dies.

Mr. Tawney is the son of a blacksmith. At the age of 15 he entered his father's shop and learned the trade of blacksmithing. Then he took up mechanics and mastered that trade. He worked at the bench until he was 22 and then he began to read law at night when he was free from the necessity of labor. For two years he studied thus unaided. Then he entered the law office of Bentley & Vance, of Winona, his own town. In one year he was admitted to the bar and then took a course in the law school of the University of Wisconsin. In 1880 Mr. Tawney was elected to the state senate. Six years ago he was elected to congress, and has been twice reelected. He is a republican and one of the quietest members of the house.

Mr. Tawney's suggestion will save no end of business to the railroads of the United States. How valuable the privilege is may be gathered from the squirming of the Canadian Pacific road, which got most of the traffic. No man in Minnesota is as big to-day as Congressman Tawney, and he is just 42 years old.

### DR. VON HOLLEBEN.

The New German Ambassador is Well Liked at Washington.

Dr. von Holleben, who will soon come to Washington as the ambassador from Germany, is one of the best known diplomats in Europe. The doctor is also well known and highly esteemed in Washington, where he filled the post of German minister from March, 1892, to September, 1893. The mission was then raised to an embassy, and Dr. von Holleben was replaced by Ambassador Saurma-Jeltsch. The new ambassador is highly educated and a most suave man. He speaks English with as much fluency as a born American or Englishman, and during his stay here five years ago he won many friends in Washington society, where he was known as

(New German Ambassador at Washington.)

one of the few bachelors of the diplomatic corps. Dr. von Holleben has had a wide and varied experience as a diplomat. He has represented Germany at Santiago de Chile and at Tokio. That was before his appointment to the American mission. He is about 55 years old and has an inclination toward the pleasures of literature. He will replace Baron von Thielmann, who is to be secretary of the German treasury. Dr. von Holleben is now minister at Stuttgart.

### THE BROWN-TAIL MOTH.

A Poisonous Pest of Massachusetts Towns.

Many residents of Somerville have been afflicted recently with a strange disease, which baffled the physicians, and for which no one could offer an explanation, says the Boston Transcript. They seemed to have been victims of ity poisoning, the hands and arms reddening and swelling, but they had not touched any ivy. It is now definitely known that the trouble all came from the presence of that new pest, the brown-tail moth.

This discovery was made by the employees of the gypsy moth committee, who, to their sorrow, have found that to touch a brown tail moth is equivalent to taking a dose of poison. When the employees of the committee began their annual work of turning burlaps to see how many pupa had secreted themselves thereunder, they found in the places contiguous to Somerville a number of pupa of the brown-tailed moth. Grown carelessly by the innocent nature of the canerella dispar, they plucked them off and destroyed them. Then the trouble began, and loud are the complaints of the men with poisoned hands and arms. The moths are now handled gingerly. The center of the gypsy moth pestilence has moved from the Malden-Medford district, where it originally developed, to the Saugus woods. It is estimated that the committee men are slaughtering 100,000 daily.

Superintendent Smith's Snarler Becomes Smiles's Devoted Friend.

Superintendent John B. Smith, of the Central park menagerie at New York the other day found in the rhinoceros cage his large black cat Snarler, which had been missing for a week. While going through the elephant house in which Smiles, the old rhinoceros, is kept, Superintendent Smith saw the missing cat curled up in the hay beside the big beast, and the rhinoceros was licking the cat's fur with its tongue. Superintendent Smith watched the pair for a time and tried to coax the cat out, but it would not leave Smiles. A keeper informed him that the two had struck up a strong friendship in the past week, and when the rhinoceros was asleep the cat would frequently perch itself on Smiles' back and keep watch. "In its native state," explained Superintendent Smith, "a bird known to hunters as the rhinoceros bird keeps watch over the rhinoceros when sleeping, and pecks at its ears to arouse it at the approach of danger. Nature, perhaps, is working on the same lines in bringing Smiles and Snarler together; but it's a queer friendship, and I shall not disturb it."

### Great and extraordinary sale of Dress Goods, Silks and Winter Underwear, beginning Monday, Sept. 13th, and continuing for one week.

On Tuesday, Sept. 14th, the great Orange County Fair begins at Middletown and will continue for four days. You have had a hard season's work, take a day off, bring your wife and children along and have a day of pleasure at the Orange County Fair and combine business with pleasure. You need dry Goods, Clothing and Shoes. Nowhere can you find such an assortment and such low prices as at Bright, Busy, Wide-awake, Middletown, and particularly in Dry Goods. Nowhere can you find such remarkably low prices as at Tompkins' New Dry Goods Store. We have made a great special effort for Fair week, both because we want to and because we have to. Before the advance in prices, caused by the new tariff, we bought big lots of Dress Goods, Silks and Winter Underwear, and our store is packed to the ceiling. We find that we have bought more goods than we can dispose of this season through the regular channels of business, so have decided to give the public a big slice of these goods during Fair week at practically what they cost us, to reduce this big, unwieldy stock to proper proportions. Positively none of these goods will be on sale at these prices until Monday, Sept. 13th.

## WAYS OF COLLEGE BOYS.

How Many of Them Pay for a  
Classic Education.

During the Summer Vacation They  
Seek Work on Farms, in Hotels,  
as Drivers and as Bag-  
gage Men.

(Special Boston Letter.)

A few days ago, a well-known college athlete, a leader in New York society, entered the dining-room of a fashionable hotel in Maine. He was nattily dressed and his manner betokened all the exclusive hauteur of aristocracy. The diners gazed with wonder when the newcomer rushed up to one of the colored waiters and gave him a profusely cordial handshake. Both men were students at Harvard university, class-mates, co-athletes, and leading members of the same oratorical society.

During the vacation months, thousands and thousands of students, lead-

BURNING THE MIDNIGHT OIL.

ers in college society, are making their living by six and seven dollars a week job, and odd jobs they are, too.

It is a very common error to believe that college students as a class are wealthy. On the contrary, the vast majority of them must work might and main to make both ends meet. The rich man's son is frequently too lazy to go through five years of hard study, and knows that his nest is padded even if he does not possess any superior attainments. The poor man's boy, on the other hand, is energetic and ambitious. A college degree means to him half the battle for success, and he will make great sacrifices to attain it. Many, many lads are in our universities today, making their living from month to month, while their mothers at home are washwomen, their fathers, the poorest of poor farmers. The majority of boys probably come from the middle classes where the necessary expenses of a college education—\$300 to \$600 a year—bear too heavily on the father's pocket-book to justify the boy's doing nothing to help himself.

A good many boys work a year or two at a time and then go back to college on what they have saved. But the more energetic find the years too precious, and these pay their expenses as they go along. Besides the eight or nine hours of daily study that each student is required to do, the poor boy must find time to make a living, and when others are at a dance or at the theater he is burning the midnight oil to make up for the lost time.

This is the sort of a man to whom a college education is most valuable. His school learning has been supplemented by practical experience gained by buffeting around in the hard world of dollars and cents, while the wealthy boy has spent the years in which his life's ideas and ideals were crystallizing in looking at only one, and that a peculiar phase of life—the life of books and bookmen.

The former class predominates especially in the west. For when a man

THE PROFESSOR RECOGNIZED HIS HONOR STUDENT.

is wealthy he prefers to send his boy to some fashionable eastern institution, and so our youthful aristocracy is centered at Yale, Harvard, Amherst, Brown and a few other eastern schools.

Yet the very presence of this rich element enables a great many poor boys to attend these same aristocratic institutions. In the first place money flows easily and enables all sorts of elaborate business schemes to be advanced. Then, too, poor men make a great deal of money by tutoring the rich chaps. Such private teaching consists largely in filling up a boy who has been too lazy to attend classes regularly with a hurried review of his courses. Just before the final examinations Harvard and Yale undergraduates often command salaries of \$2.50 and \$3 an hour for tutoring in courses which they themselves have but just completed. An able man will sometimes call a class the evening before an examination.

Each student pays \$1.50 to \$2.00, and, as the classes sometimes number over fifty, tutors have been known to earn magnificent incomes.

Quite a harvest is reaped by taking shorthand notes and selling type-written copies of lectures. All such work is practically unknown in western institutions, where even the wealthier boys find it neither necessary nor financially convenient to employ tutors.

But in the east, also, every boy is not adapted for tutoring, as only those with high standing can get the work. So less dignified jobs are resorted to. For one, waiting on tables is quite common. This pays about 25 cents an hour, or so many hours a week in payment of board. Room rent is secured free of charge in return for porter service.

Odd jobs of all sorts are accepted. At Northwestern university one of the boys, class of '94, looked after the lawn and garden of the Greek professor, sold papers at the street corner, rented boats one summer, and during the freshman year even took to shining shoes. He came to college with just eight dollars in his pocket and left four years later with a diploma, a library of books, a full dress suit, all debts paid, and little the worse for wear of a few years' struggle.

The writer is acquainted with a young man of 22 who got his A. B. from Harvard university this June. He came to college with 11 cents, a good brain and a healthy body, and, last, but not least, an indomitable lot of Yankee pluck. By taking extra studies he completed the four year's course in three years.

From peddling newspapers and dicker-ing in advertising schemes, the world of his freshman year, he rose to prominence as a private tutor and newspaper writer. He has been a leader in intellectual and social spheres and besides has spent both his vacations in European pleasure trips.

Ordinarily the great time for making money is the summer vacation. It is the busy season, and boys find work as waiters or clerks. Two years ago a professor at Wisconsin university went on a fishing trip to the lakes. He met a ragamuffin fisherman, bare footed, and with a huge straw hat. The fisherman doffed his hat, and the professor recognized his honor student in political economy.

A corps of Anna Arbor students find regular work as deck hands on Mississippi river boats. One of the boys, a '98 man, who has worked in the kitchen two summers, is now the ship steward at \$15 a week.

The railroads also employ a number of boys. Last year's captain of one of the

A FAVORITE SUMMER JOB.

greatest football teams in the country has spent several summers in the baggage cars of a Chicago road, while positions as conductors on electric lines are quite commonly accepted.

Of all student jobs, canvassing is the most universal. Chances to sell on commission are always open, and when a boy possesses the proper gift of gab, he can reap a big harvest off a good-natured public.

Indeed there are stories current of smooth-faced, glib-tongued divinity men who go on the road in ministerial Prince Alberts, and sell expensive religious books. Without exactly saying so they make the farmers feel that it would mean a positive lack of piety should they refuse to buy, and it is said that more than one student has netted \$400 and \$500 during a summer's vacation.

Driving laundry wagons is remunerative employment, not only during the summer, but also through the school year. A student will usually give his colleague the preference over outside laundry men. In nearly every college shirt laundries must therefore pay a commission to some student agent.

Life insurance and real estate have also been worked, though with less frequent success. Advertising soliciting, on the other hand, appears more congenial. It requires considerable business ability besides the gift of gab. A student at the University of Chicago, who had both qualifications, solicited for the college paper, printed the scores of games with advertisement and finally undertook publishing schemes of some magnitude. Starting at college practically penniless, he cleared as much as \$350 during the last summer.

Newspaper writing attracts a large number. The much-to-be-pitied city editor can testify to this. Every June he is overwhelmed with applications from "grinds" who had "A's" in English composition and who cannot understand why their classmates who pulled only a "C minus," should get a steady job, while they themselves must lead on.

Those who wish to be free from stress and excitement generally take jobs on farms at long hours and small pay. This seems to be a specialty rather of the western than of the eastern student.

The money-making schemes that brainy men devise are practically innumerable. All sorts of positions from those of the meanest day laborer to that of an experienced business man at a high salary are filled, and a summer vacancy is hardly conceivable for which some properly qualified college man may not present himself.

## Health is Happiness.

Health is at the bottom of happiness. The man or woman who is perfectly well, enjoys life like a child. Healthy people do not appreciate the fact that the country is full of unhappy people—people who are sick with skin ailments, kidney and urinary diseases, liver troubles, stomach disorders. If they knew of all this suffering, their hearts would go out in sympathy.

## Dr David Kennedy's Favorite Remedy

makes sick people happy by making them well. It is a prescription of an old physician. It cures kidney, liver, skin, blood and stomach disorders. If all sick men and women would only try it, what a happy world this would be!

"I don't think I should have been able to be about," says Mrs. J. P. Wade of Stowe, Vermont. "It had not been Dr. David Kennedy's Favorite Remedy. I suffered from liver and stomach troubles severely, and I had taken Favorite Remedy but a little while, when I began to feel better. Now I am perfectly cured."

## YOU CANNOT CURE PILES

### By Internal Remedies.

The only sure way to cure every form of piles is to use a remedy like the Pyramid Pile Cure which is applied directly to the part affected and its wonderful healing effects are apparent from the first application because the medicinal properties are rapidly absorbed by tissues and sensitive membranes of the rectum, and the cure is made speedily, and almost before the patient is aware of it every trace of piles have left him.

This is one of the reasons why the Pyramid Pile Cure has been so uniformly successful. It is applied directly just where it is needed and where it will do the most good. Not by the roundabout way of the stomach nor by the harsh, barbarous methods of various surgical operations and so called systems.

Direct application to the seat of disease is the only rational way, and this is fully accomplished by the Pyramid Pile Cure.

If the voluntary testimony of thousands who have tried this remedy is worth anything, then no sufferer has any excuse for longer delaying in giving it a fair trial, knowing that when you do so the Pyramid Pile Cure will have made one more friend, the best possible advertisement we can have. The chief advantages of the remedy are: It cures without pain, the cure is lasting, it contains no poison, and lastly, it is the cheapest and quickest cure yet found. Your druggist can tell you what it has done for others. Sold by druggists at 50 cents and \$1 per package.

## JUDICIARY CONVENTION.

Whereas, at the Judiciary Convention of the  
Democratic party, held in and for the Second Ju-  
dicial District, at the Court House, in the city of  
Brooklyn, N. Y., on the 29th day of September,  
1896, it was unanimously resolved that the Chair-  
man and Secretary of said convention be author-  
ized to call the next Judiciary Convention of said  
district, and to effect its organization as tempo-  
rary officers.

Now, therefore, by virtue of said authority, the  
undersigned do hereby call a Judiciary Conven-  
tion of the Democratic party in and for the sec-  
ond Judicial District, to be held at the Court  
House, in the city of Brooklyn, N. Y., on the 29th  
day of September, 1897, at 12 o'clock noon, for the  
purpose of nominating a candidate for the office  
of Justice of the Supreme Court, in place of  
Mr. Justice Willard Bartlett, to be voted for at  
the ensuing general election.

Dated September 16th, 1897.  
ARTHUR C. SALMON, Chairman.  
JOHN W. LYON, Secretary.

ALTON B. PARKER NOMINATED.  
The Democratic State Committee at its  
meeting in New York, yesterday, nomi-  
nated Judge Alton B. Parker, of King-  
ston, for Judge of the Court of Appeals.  
The committee gave a hearing to the  
representatives of several organizations  
which desired the committee to reaffirm  
last year's platform or make some equal-  
ity specific declaration in favor of the free  
coinage of silver, but the ground was  
taken from under the feet of these extre-  
mists by the reading of a letter from  
Chairman Jones, of the Democratic Na-  
tional Committee, in which he advised  
that it was neither wise nor necessary to  
give national issues undue prominence in  
a distasteful State campaign.

One of the outside organizations, the  
Loyal Democratic League, held a meeting  
after the adjournment of the State Com-  
mittee at which it was proposed to nomi-  
nate an independent candidate for Judge  
of the Court of Appeals. This suggestion  
was promptly followed by the resig-  
nation of most of the country members,  
whose loyalty to the Democratic party  
was not shaken by the fact that they had  
not been able to control its action or  
shape its policy, and who have no wish  
to place themselves in the same position  
as those whom they denounced as bol-  
sheviks, kickers and renegades in last fall's  
campaign.

Judge Parker is now on the Supreme  
Court bench. He was for many years  
prominent in Ulster county politics and  
has a very strong hold on the rank and  
file of the Democratic party in that coun-  
ty, whose representatives in the County  
Committee recently adopted resolutions  
urging his nomination for the Court of  
Appeals, in which they commended him  
for his unswerving loyalty to Democracy  
and eulogized his private worth, his pro-  
fessional attainments and his judicial  
record.

## Painted on the Fair Grounds.

Yesterday afternoon, George A. Swaze,  
superintendent of horses at the county  
fair, was overcome by the heat and  
fainted on the ground stand. He was  
taken to his home in a carriage. Mr.  
Swaze has worked diligently for the  
success of his department, and although  
complaining of illness all day, he refused  
to give up until compelled to. He was  
much better this morning.

## \$100 Reward, \$100.

The readers of this paper will be  
pleased to learn that there is at least  
one dreaded disease that science has  
been able to cure in all its stages and  
that is catarrh. Hall's Catarrh Cure is  
the only positive cure now known to the  
medical fraternity. Catarrh being a con-  
stitutional disease, requires a constitu-  
tional treatment. Hall's Catarrh is tak-  
en internally, acting directly upon the  
blood mucous surfaces of the system,  
thereby destroying the foundation of the  
disease, and giving the patient strength  
by building up the constitution and  
assisting nature to do its work. The

## SOFT COAL MINERS' STRIKE ENDED

Over 15,000 Men Returned to Work  
To-day—Strike Against the DeArmitts  
to Be Continued.

BY ASSOCIATED PRESS.

PITTSBURG, Sept. 16.—After three  
months of idleness, over 15,000 coal  
miners in the Pittsburgh district went  
to work, to-day, in accordance with the  
sixty-five cent scale adopted at Colum-  
bus. The remainder of the 23,000  
miners will be working before the end of  
the week.

The strike lasted sixty-five working  
days and cost the Pittsburgh district  
people between \$5,000,000 and \$7,000,000,  
of which \$2,250,000 was lost wages.

The strike against the DeArmitts will  
continue indefinitely. Arrangements  
have been made for assessing the work-  
ing miners five per cent of their wages  
toward defraying the expenses of keep-  
ing up the fight till the sixty-five cent  
rate is made uniform throughout the  
district.

## MURDER IN NEWBURGH.

A Family Returned After Several  
Weeks' Absence and Found Their Ser-  
vant Murdered.

BY ASSOCIATED PRESS.

NEWBURGH, Sept. 16.—Mrs. Bridget  
Hayes, a domestic, aged forty, was  
found dead this morning in the bath-  
room of a Grand avenue residence with  
her throat cut.

The family had been absent for several  
weeks and returned, this morning, to  
find the domestic murdered. It is sup-  
posed the crime was committed yester-  
day.

The coroner is investigating. There is  
no clue to the murderer or his motive.

hood. If the day should prove to be  
stormy the excursion will be postponed  
until Friday, 24th, inst. The object of  
this excursion is a worthy one, it only  
for the brotherhood sick benefit fund, and  
should be liberally patronized. Don't  
forget the date, Sept. 23rd.

## A LUNATIC'S ESCAPE.

Got Away from a Matteawan Attendant  
at the Erie Station.

An attendant from the Matteawan  
Hospital for the Criminal Insane came  
to this city, yesterday, to take a crimi-  
nal patient from the State Hospital here  
to the one at Matteawan.

The attendant started with prisoner  
to take the Erie's 4:11 train, but in the  
big crowd of returning fairgoers about  
the station the lunatic dodged his keeper  
and got away.

An alarm was sent out and about 10  
o'clock last night the man was picked  
up by the Goshen police.

has left the city.

## Suicide at Central Valley.

Mrs. May Clay, a New York stenog-  
rapher under treatment at the Central Val-  
ley Sanitarium, committed suicide, Wed-  
nesday morning, by hanging herself in  
her room. She left a note saying that  
she could not bear the thought of being  
a burden to her friends.

HYMENEAU,  
Baker-Pierson.

The marriage of Miss Emma M. Pier-  
son, eldest daughter of Newton B. Pier-  
son, of 24 Prince street, and James C.  
Baker, only son of Mr. and Mrs. Oscar  
Baker, of near Ellenville, took place at  
4:30 o'clock this afternoon, at the resi-  
dence of the bride. Her pastor, Dr. Wil-  
liam A. Robinson, of the First Congrega-  
tional Church, officiated.

The bridesmaid was Miss Bessie E.  
Baker, of Bloomingburgh, sister of the  
groom, and the groomsmen were William  
McC. Pierson, brother of the bride.

The bride was charming in a traveling  
dress of brown mixed goods with hat to  
match. The bridesmaid wore a dress of  
similar color.

The groom, who is employed by the  
Middletown-Goshen Traction Company,  
has been a resident of this city for eight  
years.

Mr. and Mrs. Baker left on the 4:20  
train on the O. and W. for a short wed-  
ding tour to New York and Albany. On  
their return they will reside with the  
bride's father for the present.

## One Dollar to New York and Return.

The Erie announce a \$1 excursion to  
New York on Wednesday, Sept. 22nd,  
via special train in both directions.  
Special train leaves James street at 7:54  
and Main street at 7:56 a. m. Return-  
ing, leaves Jersey City at 8 p. m., arriv-  
ing here about 9:45 p. m. Connection  
will be made with M. and C. branch  
trains in both directions. Matinees at  
all theatres, together with the other  
numerous attractions offered at this  
time of the year, make it an opportunity  
for a delightful day's outing at a very  
small cost.

## Try Grain-O! Try Grain-O!

Ask your grocer to-day to show you a  
package of GRAIN-O, the new food drink  
that takes the place of coffee. The chil-  
dren may drink it without injury as well  
as the adult. All who try it, like it.  
GRAIN-O has that rich seal brown of  
Mocha or Java, but it is made from  
pure grains, and the most delicate stom-  
ach receives it without distress. One  
fourth the price of coffee. Only 15c. and  
25c. per package. Sold by all grocers.

In cases of burns, scalds, sprains or  
any of the other accidental pains likely  
to come to the human body, Dr. Thomas'  
Electric Oil gives almost instant relief.

Does your head feel as though some  
one was hammering it; as though a mil-  
lion sparks were flying out of the eyes?  
Have you horrible sickness of the stom-  
ach? Bardock Blood Bitters will cure you.

—Miss Marion Abbott will take the part of "Mine Saus Gene," at the Casino, to-night. Secure your seats now.  
 —A Middletown blacksmith, plain drunk, was discharged with a reprimand by Recorder Barnes, this morning.

—Tickets are on sale at Prunk's for Roscher's orchestra's hop at Columbia Park, Friday evening. Ladies are invited free.  
 —Mrs. J. Brown, of Fair Oaks, lost a black braided cape on the fair grounds, yesterday. Please leave at the Arcade tent.

—The "Great Train Robbery" will be produced at the Casino next Monday evening. There will be six Cheyenne Indians in the company.  
 —In making engagements for the future do not forget McQuoid's annual festival at the Assembly Rooms, Thursday evening, Sept. 30.

—Assistant Treasurer Nickinson reports that the gate and grand stand receipts, Tuesday, were \$345.90, and \$1,709.70 yesterday.

—The interest taken in the races proves that they are a drawing card and a most popular feature. The grand stand was crowded, and the rails on both sides of the track were thickly lined with men, women and children for a long distance above and below the wire.

—The judges in most of the departments finished their work yesterday afternoon, but there were so many entries in some of the classes that the making of awards was not completed until this morning.

—As is always the case there are some disappointments, but the awards have in the main been accepted with good grace and no protests have been filed with the secretary.

—The fakirs in the Jillett meadow opposite the entrance to the grounds have picked up some stray nickels, dimes and quarters from the crowds coming and going on the electric road, but none of them have made big money. The man who runs the wheel of fortune seems to be a generous soul, for at long intervals he permits those who are trying to beat him at his own game to win.

—Schmitt's beer booth has been moved from the entrance to the grounds about half way across the meadow. This was necessary because of the discovery that there is a law forbidding the maintenance of such an establishment within 200 yards of a fair ground. As Mr. Schmitt understood it the "dead line" limit was 200 feet, but when informed that it was 200 yards he promptly moved his booth.

—Up to 2 o'clock, this afternoon, 4,500 single admission tickets had been sold. Premiums have been awarded as follows:

## THE COUNTY FAIR.

Another Large Crowd on the Grounds, To-day.

## SOME PRIZE WINNERS!

Partial List of the Premiums Awarded.

To-Day's Attendance Much Larger Than the Managers Had Anticipated—Racing a Popular Feature—The Fakirs Outside the Gates—The First Two Days' Gate Receipts—Notes and Comments.

The officers of the Orange County Agricultural Society are agreed that they made no mistake in bringing the fair to Middletown. The attendance, yesterday, was so gratifyingly large as to relieve their minds of all anxiety as to the financial results of the exhibition, while the crowd present to-day, though not as large numerically, for the children are not in evidence, is still much larger than they dared to hope for Monday or Tuesday.

The large attendance, this year, makes it certain that greater interest will be taken in the fair next year by Middletown people, and that there will be a very marked increase in the number of exhibitors, especially among the business men of our city.

Assistant Treasurer Nickinson reports that the gate and grand stand receipts, Tuesday, were \$345.90, and \$1,709.70 yesterday.

The interest taken in the races proves that they are a drawing card and a most popular feature. The grand stand was crowded, and the rails on both sides of the track were thickly lined with men, women and children for a long distance above and below the wire.

The judges in most of the departments finished their work yesterday afternoon, but there were so many entries in some of the classes that the making of awards was not completed until this morning.

As is always the case there are some disappointments, but the awards have in the main been accepted with good grace and no protests have been filed with the secretary.

The fakirs in the Jillett meadow opposite the entrance to the grounds have picked up some stray nickels, dimes and quarters from the crowds coming and going on the electric road, but none of them have made big money. The man who runs the wheel of fortune seems to be a generous soul, for at long intervals he permits those who are trying to beat him at his own game to win.

Schmitt's beer booth has been moved from the entrance to the grounds about half way across the meadow. This was necessary because of the discovery that there is a law forbidding the maintenance of such an establishment within 200 yards of a fair ground. As Mr. Schmitt understood it the "dead line" limit was 200 feet, but when informed that it was 200 yards he promptly moved his booth.

**THE COUNTY FAIR RACES.**  
 Watched With Interest and Pleasure by Thousands—An Exciting Runaway on the Track—Ella Madison's Fast Time—Five Heats in the Road Race.

The trotting races proved an attractive feature at the fair Wednesday afternoon. And long before 2 o'clock, the hour named for the start, the fence on both sides of the track was lined with spectators. No one needed to be told that it was children's day, for the youngsters were everywhere in evidence. The special policemen detailed to keep the track clear were unable to cope with the youthful dodgers, and it was necessary for Supt. Goodale to increase his force.

The racing was good, the finishes in the road race being particularly close and interesting. During the second heat of this race, Major, driven by M. Nagle, broke his right rein and ran away. He kept well ahead of his field and continued on for a mile, when he slowed up and Nagle jumped from the sulky. The horse continued on his wild run when relieved of the extra weight and was finally caught by William Robbins on his fast pony. The exhibition of horsemanship given by Mr. Robbins was fully appreciated by the crowd, which cheered him lustily. The horse and sulky were uninjured, but driver Nagle will have to buy a new pair of trousers and nurse several abrasions on his knees.

The judges yesterday were Dr. F. M. Barnes and E. E. Wood, of Middletown, and Phillip Hasbrouck, county superintendent of the poor. The starter was W. W. Gibbs, of Goshen. H. B. Royce was clerk of the course.

Ella Madison won the first race hands down and got a new mark of 2:21. The mare could have gone several seconds faster, and Mr. Miller regrets that she was not forced to the pace as it would have placed her in the "20" class, a condition which would have added much to her value as the mare has been bred to Stamboul.

The road race looked like an easy thing for H. S. Chardavoyne's H. S. C., who won the first two heats. Ruby, however, had the staying qualities and captured the next three heats and the race.

**A BROKEN TROLLEY WIRE.**  
 Traffic on the Electric Road Stopped for Half an Hour—Many Inconvenienced at the Fair Grounds.

The Traction Company which was handling the large crowd in attendance on the fair, yesterday, in a most satisfactory manner, had a bit of hard luck about 6 o'clock, when the trolley wire broke in two places. Traffic was stopped for about half an hour until the breaks could be mended.

The greater part of the crowd had left the grounds but there were, perhaps, a thousand people who had expected to return to the city by the electric cars and who were left in the lurch for a time. Many of them walked back to town and others returned in carriages, but the greater part of them waited with such patience as they could until the cars were again running.

INCIDENTS AND HAPPENINGS IN GOSHEN.

**Our Ball Players Beaten at Port Jervis.**  
 —Truant Officers Appointed—Returned to Goshen.

From Our Regular Correspondent.  
 —The Goshen baseball team was defeated at Port Jervis, yesterday, in a well contested game. Score 6 to 5. Goshen led their opponents until they came to the last time at bat, the score standing 5 to 3 in our favor. The Goshen batsman are credited with thirteen long drives that would have been home runs on the Goshen grounds. Port Jervis could not hit Tierney until the last inning and they only secured seven hits in all. The return game will be played at Goshen, Saturday. It will be a good one and the attendance will be large. Port Jervis promises to send a delegation 300 strong.

—John R. Case has been appointed truant officer for the town of Goshen outside the village limits. He was appointed by the Town Board.

—Pascal Ramires has returned from Brooklyn and again assumed charge of his barber shop in this village.

**SPILLED IN THE STREET.**  
 A Woman Badly Hurt by the Giving Way of a Wagon Wheel.

One of the hind wheels of a wagon, in which two men and two women were riding, gave way on North street, at noon to-day. All the occupants of the vehicle were thrown out and one of the women was quite badly hurt. She was carried into the home of Officer White, in front of which the accident happened. One of the men was also hurt on his knee.

The party refused to give their names, saying they were not anxious for newspaper notoriety. It is known that one of the couples was from Bloomingburgh and the other from Hancock.

**Railroad Travel to the County Fair.**  
 The Ontario and Western's Sullivan County Express brought in 243 passengers, this morning, and the Crawford branch train had about 200 on board. The Erie trains from the East and West all brought crowds; the Ontario and Western's day express came in loaded with fair goers from the eastern and central portions of the county and people along the Susquehanna and Western turned out in such large numbers that the many extra cars provided by the managers were barely sufficient to transport the crowd.

## CARRIED \$2,500,000.

The Steamship Excelsior at Last In Harbor at San Francisco.

**F. HAYES OF PORTLAND A LUCKY MAN.**

Passengers Unite In Confirming the Stories of Famine at Dawson and Say Seven Thousand People Are There Now, With New Arrivals Daily.

SAN FRANCISCO, Sept. 16.—The long overdue steamer Excelsior, which left St. Michaels, Alaska, for this port six weeks ago, but was compelled to put back to Unalaska for repairs after having broken two blades of her propeller, has arrived here with 63 passengers and about \$2,500,000 in gold.

Of those who came down from Alaska all but two are known to have money, but few were communicative enough to admit how much they had. F. Hayes of Portland was conceded to have the largest individual amount, but upon being interviewed he would admit having but \$35,000.

All unite in confirming the stories already told of the impending danger of famine at Dawson City during the coming winter. They say there are at least 7,000 people now at Dawson City and that the provisions are already running short, and the prospects of getting more are remote. The Excelsior's passengers are unanimous in the opinion that the Klondike region is richer than was at first supposed, but are also of the opinion that unless the immigration to that country is stopped temporarily there will be terrible suffering.

Louis Sloss, Jr., of the Alaska Commercial company was one of the passengers on the Excelsior. He went to Dawson City for the company and reports that all the good claims are taken up.

There is no chance for the newcomers unless a few strikes are made in some other section. Mr. Sloss says that his company's store at Dawson was closed for but one day, to receive freight from a river steamer. He thinks provisions will be scarce, but hesitates to say there will be actual starving.

There are about 300 impatient miners at St. Michaels, most of whom will have to stay until spring unless they have already secured passage on the river boats. There are plenty of provisions at St. Michaels, and every effort is being made to get supplies up the river to Dawson.

It is difficult to say how much money was brought down by the Excelsior. The miners are secretive and will give no accurate information. Some of them, it is known, could not bring much and will be glad to go to work down here. The Alaska Commercial company received a large consignment of treasure, but will not say exactly how much. When asked as to the amount, Mr. Sloss said, "We brought more than came down on the Portland, and we did not need any maxims guns to protect it."

**St. Michaels Commissioner Arrives.**

WASHINGTON, Sept. 16.—The officials of the interior department were much relieved at receiving word that Mr. L. B. Shepperd, the United States commissioner to St. Michaels, Alaska, had arrived at his post and was prepared to take up the business of his office. A government commissioner in a place so remote as St. Michaels practically performs the duties of a federal judge, and the post at St. Michaels has become of exceptional importance since the Klondike discoveries were made. Mr. Shepperd was appointed on the 22d of July, and while he left St. Michaels immediately afterward, nothing had since been heard from him, and some uneasiness was felt. He reported by message, wired from Seattle, that his bond had been forwarded and that he was ready for business.

**Death From a Railway Collision.**

SCHENECTADY, N. Y., Sept. 16.—As the Erie passenger train was leaving this city at 6:15 o'clock last night, it came into collision with a Delaware and Hudson dummy engine at the Union street grade crossing. Neither train nor engine was going over five miles an hour, and yet the accident resulted in the death of John Balfour, the fireman on the dummy, and the serious injury of Engineer George Shaw of the passenger train. Shaw's leg is badly crushed. Balfour was running the dummy at the time, and it is stated that his inexperience was the cause of the accident. Both engines and a baggage car were badly damaged.

**Narrow Escape of Thirteen Laborers.**

NEW YORK, Sept. 16.—So as to make room for small public park on the lower east side of the city, a number of tenement buildings near the junction of Division street and East Broadway were condemned and ordered torn down. While 13 laborers in the employ of Contractor Max Cohen were removing the roof of 176 Division street, a five-story structure, at 5:30 o'clock yesterday afternoon, it began to shake. They escaped to an adjoining roof just as the tall building collapsed and fell in a heap of ruins.

**New Drydocks May Be Built.**

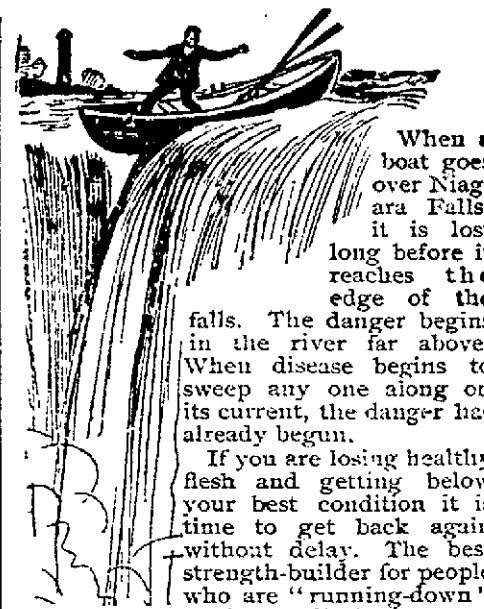

WASHINGTON, Sept. 16.—The navy department is resolved to free itself from responsibility of sending American warships to foreign docks in the future, and to this end the department will recommend to congress that appropriations be made for the construction of at least four new drydocks. It will be suggested that these be located at Boston, League Island, Norfolk and Boston, Cal. and it is hoped that congress will authorize the construction of at least some of them.

**Found Dead In a Ship's Cargo.**

GLASGOW, Sept. 16.—During the unloading of the Allan line steamship Tayahiti, Captain Brown, from New York Aug. 25, which arrived here on Sept. 10, the body of a young American was found buried deep in grain. It is supposed that the unfortunate man was shot in with the grain when the vessel was being loaded in New York.

**Coal Vessels to Be Exempt.**

WASHINGTON, Sept. 16.—The Mexican government has exempted American and other sailing vessels carrying exclusively coal into Mexican ports from tonnage duties.

When a boat goes over Niagara Falls, it is lost long before it reaches the edge of the falls. The danger begins in the river far above. When disease begins to sweep any one along on its current, the danger has already begun.

If you are losing healthy flesh and getting below your best condition it is time to get back again without delay. The best strength-builder for people who are "running-down" is Dr. Pierce's Golden Medical Discovery. It enables the digestive and assimilative forces to make fresh, red healthy blood which rapidly creates new tissue; no flabby fat but solid, muscular flesh, nerve force, and vital energy.

"I was a complete wreck; appetite gone, nervous system impaired, could not sleep, and was so weak that I could not stand on my feet ten minutes," writes Miss Ella Bartley, of No. 2134 South Grant Avenue, Columbus, Ohio: "I only weighed 95 pounds when I commenced taking Dr. Pierce's Golden Medical Discovery. After I had taken a half bottle I began to improve; I could sleep, could eat the whole night, and was awakened with an appetite for breakfast, which was a rare thing as I never had for two years back eaten a hearty breakfast. I now have an excellent appetite and my friends say they never saw me looking better or in better spirits since they knew me. I tell them it is all due to Dr. Pierce's 'Discovery,' and I am so thankful and grateful that I never tire of praising his medicine every opportunity I get. I had given up in despair, and nobody knew but those words truly, but those who have suffered like I did for two long years. I was convinced that your medicine would help me, and I am here in person, a living testimonial of its merits."

For constipation, Dr. Pierce's Pleasant Pellets are a simple yet sure remedy, mild but thorough in their effect, and a permanent cure. No ordinary Pills are so perfect and scientific. By all druggists.

## NO MATERIAL CHANGE

The Strike Situation at Hazleton Practically Unaltered.

GENERAL GOBIN EVER ON THE ALERT.

The Question of Arresting the Deputies Will Remain In Abeyance Until the Inquest on the Dead Miners Is Held.

HAZLETON, Pa., Sept. 15.—A calm pervaded Hazleton and its environs yesterday, and no disturbances were reported. The strikers maintain silence and good order. An extra guard was placed about the company stores at Lattimer in consequence of a current rumor that the foreigners were plotting to blow up the building with dynamite. They have ceased dealing there and are now buying their provender in Hazleton. Some are going so far as to move into the town, and several cartloads of poor household goods were traveling toward over the Lattimer road.

For some reason which could not be learned extra vigilance was maintained at the camp of the Ninth regiment at Hazle park. The guard was strengthened, and not a soldier was permitted to leave camp. The Fourth regiment shifted from Audenried to Drifton in the afternoon, and established camp on the hills. There is no indication of trouble there, but General Gobin means to keep every locality guarded.

Arrangements are under way for a monster mass meeting here on Saturday night, and it is understood that efforts are being made to bring Eugene V. Debs and other prominent labor men to address it.

All the miners in the middle coalfield will be asked to attend, and it is estimated that 25,000 miners will be present.

General Gobin had heard nothing of the proposed meeting and said he would treat with the emergency when it arose.

Another story of the day was that William J. Bryan had been secured as counsel for the prosecution of Sheriff Martin and the deputies. It was scouted by the strike leaders as too absurd to merit consideration.

The arrangements for the prosecution by the Austrian societies, who have taken up the cause, have been brought to a pause by General Gobin's order forbidding the arrests of the prospective defendants. Several meetings were held, but it was finally determined to let the matter rest in abeyance until after Coroner Bowman has held his inquest and reached a verdict. That official has not yet fixed a date for the inquiry, but thinks it will be some time in the early part of next week. Fifty or 60 witnesses will be examined, including Sheriff Martin and a number of his deputies and some of the miners. No matter what the verdict may be the case will be carried into the courts, but no details have been arranged.

The strike conditions have not been materially changed. None of the malcontents manifested any disposition to return to work, and a few more joined their ranks. These were from the Audenried washeries, about 100 in number. So far as can be learned, no plans are under consideration by the strikers looking to a resumption of work.

The 500 men employed at the Beaver Brook colliery of Dodson & Co. met and decided to demand an increase of 10 per cent in wages and the sale of powder at \$2 per keg instead of at \$2.75. If the company refuses, they, too, will join the striking army.

Rumors and reports of more or less value continue to agitate brigade headquarters and the various camps. What was set down as a startling dynamite plot has come to the usual lame and impotent conclusion. It flashed in from Cranberry. A local detective gave the information that a quantity of the explosive had been secreted by the miners there. Two deputies, armed with search warrants and guarded by a detail of cavalry, went over and made a thorough search of eight houses without discovering anything to confirm the suspicions. The troopers went from there to McAdoo and Beaver Brook to take a look around.

The signal station, perched on the top of a monstrous culm bank at Lattimer, made a report which caused some uneasiness. It was to the effect that suspicious lights were seen moving up and down the mountains surrounding Mineville, giving the appearance of a march or a meeting of miners. Everything in the district was quiet, however, and no further information was obtained. The mysterious lights may have been nothing more terrible than the lanterns of a few night working miners or pumping engineers, but General Gobin made a note of the matter.

The funeral of Clement P. Pollock, another victim of the shooting, occurred in Cranberry yesterday. The entire village was wrapped in an atmosphere of gloom. The Audenried drum corps led the line of march, with the Synour Polish society following. Two carriages containing mourners and about 700 miners were in the line of march. Services were held at the Polish church by Rev. Dr. Aust, and interment followed in the church cemetery.

J. H. Jacobs, an East Broad street baker, is a much frightened man. He has received a letter threatening him with death. It was signed "Committee of Foreign Element" and read to the effect that proof had been secured that he had acted as one of the deputies and that he would be killed the first time he ventured outside the city. The letter is regarded as a foolish hoax.

**More Brokers Fail.**

NEW YORK, Sept. 15.—Seymour Thos., stock brokers, of 30 Broad street, assigned yesterday afternoon at 4 o'clock without preference. Ex-Justice of the Supreme Court Charles Donohue was named as receiver. The firm is composed of Edwin W. Cox, Allen Lewis Seymour and James W. Seymour, Jr. Mr. Cox lives at Morristown, N. J. The men were extensive bidders in stocks, grain and cotton, and it is said their failure was caused by heavy dealing in wheat.

**Fifteen-Year-Old Girl Smiles.**

NEW YORK, Sept. 16.—Margaret McMahon, 15 years old, daughter of a poor man, committed suicide last night by swallowing carbolic acid. She has been in ill health, and worry was probably the cause of her suiciding.

### Why He Was Excused.

"You wish to be relieved from jury duty, but you haven't a good reason," said the judge.

"It's public spirit," said the unwilling juror. "on the score of economy. I have dyspepsia, judge, and I never agree with anybody. If I go on this jury there will be a disagreement, and the county will have to go to the expense of a new trial."

"Excused," said the judge.—Green Bag.

### Those Military Bills.

She—I think one thing is very unfair. A woman is forced to reveal by her name whether she is married or not. All men are called "Mr." and there is no way to distinguish the married from the single by their names.

He—Oh, yes, there is. It's very easy. She—How, I would like to know?

He—Just examine the checks he signs.—Detroit Free Press.

### A Truthful Saw.

When church is out, and Jack and Jill in linked seclusion stray, It takes them two long, lonely hours To pick their homeward way; And as it's scarcely half a mile, No reason can I find Why it should take so very long. Except that "love is blind."

—Puck.

### TO JUDGE BY APPEARANCES.

Guest—Is this steak broiled?  
Waiter—Yes, sah. What did you think had been done to it, sah?  
Guest—I did not know but it had been embalmed.—N. Y. Journal.

### Utility.

There must be some who labor hard This old world to exalt, To turn a occupation for The people who find fault.

—Washington Star.

### Sizing Him Up.

First Tramp—Yer say der woman dat gave yer der grub didn't blieve yer war a gentleman in reduced circumstances?

Second Tramp—Dat's what I said.

First Tramp—Did she? He yes?

Second Tramp—No; she brought me a knife ter eat der pie wid.—N. Y. Truth.

### How It Happened.

"I can't understand how such a hideous thing as the doctrine of total depravity ever came to be promulgated. Well, man was bound to reach some curious conclusions in the effort to account for his neighbors."—Chicago Journal.

### A Model Youth.

Rev. Goodman—You are a very noble little fellow, Tommy. Now tell me what deep, underlying principle prompted you to forgive those wicked boys who called you ugly names?

Tommy—They was bigger than me.—Brooklyn Life.

### A Powerful Argument.

Her Father—So you wish to marry my daughter?

The Diplomat—Yes—but a dearer wish of mine is to comfort your own declining years.

Her Father—Say no more. You'll do.—N. Y. Journal.

### Providing Them Practice.

Keedick—How wonderful are the ways of nature.

Fosdick—In what respect?

Keedick—It brings along the green apple season just when the young doctors are being graduated.—Judge.

### Struck by the Old Man.

Van Cleave—Was Teddie thoughtless much impressed with Miss Vanderwhack when he called on her last night?

De Caverly—I don't know about that, but I understand he was much struck by her old man.—Town Topics.

### Fresh Allowance Needed.

"I suppose you keep track of your running expenses, my son?"

"Oh, yes, father. The wrong horse won every race this week."—Detroit Free Press.

### They Ought To Be.

"They seem to be interested in each other."

"They are. He is waiting for her husband to die and she is waiting for him to get a divorce."—Harlem Life.

### Breaking It Gradually.

Howso—Sobs is a kind-hearted man. Cusmo—Why?

Howso—When his wife's pet poodle died he got a friend who stuttered to break the news to her.—N. Y. World.

### An Indignity.

"What's the colonel so tearing mad about, doctor?"

"I gave him some medicine to be taken three times a day in half a glass of water."—Detroit Free Press.

### A Choice of Routes.

She—Yes, Mr. Detrop has dropped out of my life forever.

He—Elevator or coal hole?—Chicago Record.

### In the Conservatory.

"You are my ideal: won't you be my wife?"

"I prefer to remain your ideal."—Brooklyn Life.

### The Height of Cruelty.

"Cruel, heartless woman!" cried Lord Cashbrooke. "You told me you loved me, and yet I discover that your father is a bankrupt!"—Tit-Bits.

Armstrong and T. W. Townsend. The former had the celebrated dog Ornamant, \$8,000, owned by Pierpont Morgan. The animal is the finest collie on exhibition.

Secretary Morrison is the father of Children's Day at fairs. He introduced it in Orange county, and it has since been copied by other fairs.

J. Laird, of West Newburgh, has 36 dogs exhibited, the largest exhibit on the grounds. Among them is a litter of six pups.

Mrs. E. G. Crist's friends are doubtless proud of her success as a prize winner. She took first or second for nearly everything she entered.

William Burke has a fine display of apple brandy, ranging from one to five years old. John Wilkin is in charge.

Emil Richards, who won so many premiums in various departments, is President Denniston's very capable gardener.

The cavalcade of horses will start, to-morrow, at 1 o'clock sharp, instead of 1:30.

A large number of female patients from the State Hospital visited the grounds, this afternoon.

The Walkill Hat Works shut down, to-day, to give its employes an opportunity to attend the fair.

## ENGLISH ODDITIES.

A Township Which Has Only One Resident.

Undoubtedly the most extraordinary township in England is that of Skidaw, in Cumberland. It contains but one house, the occupier of which is unable to exercise the Briton's privilege of voting because there is no overseer to prepare a voters' list and no church or other place of worship or assembly on which to publish one, says Pearson's Weekly.

The most remote village in England is that of Farley-cum-Piton. This truly rural spot is 30½ miles from the nearest railway station. As a contrast to this may be mentioned the hamlet of Ystrad, about ten miles from Cardiff. This tiny settlement possesses two important main roads, two railways and two large rivers.

A very unique feature is exclusively claimed by Trimley, a small village in Suffolk. In the one churchyard of the parish two churches are to be seen. Service is conducted three times a week in each of these churches at the same hour.

The deepest well in England is found at Hamilton, in Hampshire. It stretches 350 feet below the surface of the earth. About half-way down this well shaft is a subway, three miles in length, which leads to the seacoast.

On the top of the parish church tower in Bicknoller, Somersetshire, is a yew tree, now five feet high and still growing in a hardy fashion. It is generally believed that the tree owes its origin to a seed dropped by a bird.

Perhaps the most splendidly decorated church in the kingdom is that of Whitely Court, Worcestershire. It is entirely constructed of white marble, the pews are chastely carved and the pulpit is of genuine Carrara marble, richly paneled with precious stones.

On the village green at Meriden, in Warwickshire, there is a large stone cross, which is supposed to mark the central point of England.

## NOT WELL POSTED.

Guides Who Led the King of Siam About London Had Trouble.

The king of Siam has proved himself to be familiar with English history. He has not passed a regular examination, but has shown himself acquainted with the occupants of the tombs in Westminster Abbey, which is about the same, says the New York Journal. The king was shown about England's Valhalla by Canon Wilberforce. He coldly passed by the statues of Pitt, Livingstone and Herschel in the nave, but paused before that of Darwin. "Darwin, great man, I know him," he remarked. The helmet worn by Henry V. at Agincourt was shown him. He looked at it carefully and inquired its weight. He seemed surprised when told that it weighed nine pounds, twelve ounces. When shown the flags of the knights of the bath, he asked for the duke of Wellington's. Queen Elizabeth's tomb impressed him greatly. All of a sudden he said: "Where is Mary?" No one knew exactly what he meant. Then he went on: "Mary—Mary, queen of Scots."

"She was beheaded," he added. This circumstance seemed to impress him, for in a moment he said: "Where is the other?" Soon it was understood that decapitation was the connecting link and that he wished to see the tomb of Charles the First. He was disappointed to learn that Charles was buried at Windsor. In the Poet's Corner Tennyson and Scott received most of his attention. At St. Paul's he was shown the memorial of Gen. Gordon, but shocked this guides by inquiring with great sincerity: "Who was Gen. Gordon?" "Oh, he was a man very well known in the east," was the only answer thought necessary. Altogether Chulalongkorn showed himself to be a pretty fair historian, but better posted in ancient than modern events.

## BATTLE BETWEEN SNAKES.

Anaconda and Boa Fight to a Finish and Nearly Kill a Woman.

A battle royal between two large snakes and an attempt on the part of the surviving reptile to count a woman among its victims were the cause of a great deal of excitement at New York the other afternoon, says the New York Journal.

The two snakes were a ten-foot anaconda and an 8½-foot cross between a python and a boa constrictor. They were put into a box together. Suddenly there was a commotion on the inside of the box that brought over Miss Madeline, to whom they belonged, in a hurry. She found the two snakes intertwined so that it was hard to tell which was which. The anaconda was making frantic efforts to get the boa's head into its wide-open jaws, and the boa, on the other hand, was contracting its muscles around the body of the enemy with strength born of despair.

Miss Madeline made a quick dive into the box through the glass lid, which had been broken in the melee, and seized the boa at the back of its head with one hand, while with the other she clutched the anaconda in the same spot. With all her might she began tugging away, but to no purpose. The snakes then wound themselves around her body. During the struggle one of the woman's hands slipped, and quick as a flash the boa turned and bit her hand, making a deep flesh wound.

Miss Madeline dropped the snakes then in a hurry. The anaconda twisted itself with renewed vigor around the boa's body, and with a spasmodic sudden jerk finally succeeded in breaking its enemy's back. It was caught and put back into the box after much difficulty.

Field Glass Range Finder.

An improved range finder for field glasses has a flat dial plate, subdivided to correspond with the focus of the glasses, rigidly attached to the rear end of the adjusting screw; a fixed pointer secured near the screw to the frame of the glasses, indicating the adjustment upon a dial. A small wheel upon the adjusting screw turns it so that it will readily focus the glasses for various distances, and enabling the user to also estimate correctly the speed of advancing or withdrawing objects.
